TELESCOPING ALUMINUM ATV LOADING RAMP

Model 1084TR

- 625 pound capacity - single.
- 1,250 pound capacity - double.
- Compact Storage.
- Assembly required.
- One person loading.

Manufactured under U.S. Patent No. 5,645,394

WARNINGS

- The loading ramp surfaces are sharp. Always wear proper clothing and use care when handling the loading ramps. (Gloves are strongly recommended).
- Read and understand all safety and operating instructions before using the loading ramp. **Never** allow anyone unfamiliar with these instructions to use the loading ramps.
- Read and understand all safety and operating instructions provided by the manufacturer of the equipment the loading ramp will be used with.
- Extreme caution should always be used while loading and unloading your equipment.
- **Do not** exceed the rated capacity of the loading ramp.
- **Do not** exceed the rated capacity of the loading surface (i.e. tailgate). If unknown, contact the manufacturer to find the maximum load capacity.
- Never stand in the path of equipment being loaded, and keep all bystanders and children away from loading ramps.
- This ramp must be only used for loading and unloading to and from a level and stable surface.
- Use caution when using ramp in icy or wet conditions. The ramp surface may become slippery.
- **Do not** use this loading ramp to load live animals.
- **Do not** use loading ramps as a bridge, scaffolding, or any other use for which it is not intended or designed.
- If ramp is bowing while loading or unloading your equipment, which indicates an overload condition, remove the equipment immediately.
- **Do not** attempt to load or unload any power equipment with its motor running.
- Failure to follow these warnings may result in property damage and/or serious bodily injury.
