This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state. This warranty applies only while this product is in use in the United States.

Carton Contents

TOOLS REQUIRED FOR ASSEMBLY

- 1/2" Wrench or Socket
- Pliers

Assembly Instructions

- 1** Attach Hub Assembly (2) to Hitch Side Bar (1) using 1" Hex Bolt (7) and Keps Nut (8). Note that open side of Hub Assembly (2) should face away from Hitch Side Bar (1).

- 2** Slide side bar assembly over axle stubs of Roller Drum (3). Slide 1" Washer (9) over axle stub and install cotter pin (10) into hole of axle stub. Secure by spreading legs of cotter pin (10).

- 3** Install Hitch Tube (4) onto side bar assemblies. Insert 2-3/4" Hex Bolt (11) through side bar assemblies and Hitch Tube (4). Install Keps Nuts (8) and tighten.

Assembly Instructions

4

Install Tube Plug (12) into Welded Clevis Handle (5).

5

Install Clevis Bar (6) and Welded Clevis Handle (5) onto Hitch Tube using 2-3/4" Hex Bolt (11) and Keps Nut (8). Roller is now in manual rolling mode.

6

Install Hitch Pin (13) and Cotter Pin (14) for towing mode.

Operating Instructions

Before Using Lawn Roller:

Read all Safety Rules found on page 1.

Though most rollers are filled with water, we recommend adding Ethylene Glycol Anti-Freeze with the water. This will protect the tank from damage during cold weather. It is also recommended that the anti-freeze used, contain a rust inhibitor to protect the inside of the tank against rust. If the roller is filled with water only, it must be drained whenever the temperature drops below 32 degrees F. (0 degrees C). The roller weighs approximately 920 pounds when filled. Safe disposal of the antifreeze is recommended. Please follow the Anti-Freeze manufacturers warnings and disposal methods.
